

*Hospice in the Pines*  
*Continued COVID Commitment*

On behalf of Hospice in the Pines, Incorporated, please know it has been our vested interest to protect and secure our patients, families, staff and volunteers against the spread of the coronavirus. I can say with extreme pleasure that our organization has been extremely successful in maintaining a remarkably effective COVID protocol. By developing a systematic approach in providing quality care with extensive safeguards we have experienced no significant occurrences among our patients or families. From the onset of the vulnerabilities impacting our community, we have continued to cultivate a plan to assure our patients and their families will have limited exposure to the ongoing implications of COVID. It is with sincere honor to acknowledge that we have lived up to our dedicated safety initiatives.

Hospice in the Pines, Incorporated doing business as (Hospice in the Pines) has set the standard in end-of-life care for more than 38 years. We have proven our commitment to designing a program that supports every patient regardless of their personal economic status. Hospice in the Pines values the families that have entrusted us to care for their loved ones and we reflect that compassion by training our staff to demonstrate true integrity. Hospice in the Pines is invested in being a successful organization who is committed to making every patient a top priority. We have been a staple in the community for years and since our inception we have cultivated a mission that has complemented our selflessness.

While infection control from all diseases is a constant process, we have also managed to coordinate effective quality metrics to support the reduction in the

spread of all infections. As our team has extended their helping hands to support those experiencing loss, it has been comforting to see coworkers embrace one another with the labor of love we have established as our foundation of hope. Patient's individually and collectively remain the reason we have invested so much into getting it right the first time. We recognize our patients have been through so much and our desire is to ease their pain and enlighten their lives with a ray of sunshine.

Our team cares about you and we would love to receive an invitation into your life.

*Hospice in the Pines a labor of love undertaken by our Board of Directors, Staff and Volunteers.*
